

INFINITE LIGHT

Infinite Light brings together artists, musicians and curious minds for an evening in Bangkok. For one night, an ordinary studio opens into a series of rooms shaped by sound and moving light. The gathering explores how small changes in our surroundings can transform the way we notice, listen and spend time with one another. Everyone is welcome to find their own way through.

The evening moves between installations, live performances, shared tables and quiet spaces. Guests can arrive at any point, stay for a single work or follow the programme until the last light. Join us on 18 October 2026, from 20:00 until late, at Studio 08 in Bangkok. Come without a plan, bring a friend, and leave room for the unexpected.
